

SMART EXPENSE TRAKER

Overview:

The Smart Expense Tracker is a web application designed to empower users to manage their finances effectively.

The platform enables users to track expenses, set budgets, and gain valuable insights into their financial health all through an intuitive and user-friendly interface.

Key Features:

1. Expense Tracking

- Log daily expenses with categories such as food, travel, utilities, entertainment, etc.
- Attach notes or receipts for detailed record-keeping.
- Recurring expense reminders for subscriptions or regular bills.

2. Budget Setting

- Define monthly or custom time-frame budgets by category.
- Visual indicators (e.g., progress bars) to track how close the user is to hitting budget limits.
- Alerts when budgets are exceeded.

3. Financial Insights

- Generate detailed reports (weekly, monthly, yearly).
- Insights through graphs and charts for spending patterns and trends.
- Identify areas where overspending occurs.

4. Savings Goal Tracker

- Set savings targets with deadlines.

- Track progress based on monthly surpluses.
- Suggest actionable tips to meet savings goals.

5. Multi-Device Sync

- Access your data across devices (desktop, tablet, mobile) with real-time sync.
- Cloud storage for data security and easy backup.

6. Security & Privacy

- Encrypted user data to ensure privacy.
- Optional biometric login for enhanced security.
